Searchtopic=A method for evaluating a network management tool, the method comprising:
calculating a total cost of ownership for a communication network',
calculating a potential cost avoidance realizable through the network management
tool;
calculating a potential ~~service~~ ^{service} creation accelerated revenue realizable through the
network management tool; and
determining an evaluation factor for the network management tool, wherein the
evaluation factor corresponds to the total cost of ownership, the potential cost avoidance ^{ance}
and the potential service creation accelerated revenue.

A system for evaluating a network management tool, the system comprising:
a configuration management request (CMR) cost calculator;
a problem management request (PMR) cost calculator',
a service creation accelerated revenue (SCAR) cost calculator', and
an evaluator in communication with the CMR cost calculator, the PMR cost
calculator, and the SCAR cost calculator.
